See Note 2 - Summary of Significant Accounting Policies in the Company’s Annual Report for the Company’s significant accounting policies.

For the six months ended June 30, 2021, there were no significant changes made to the Company’s significant accounting policies. See Note 3, *Recent Accounting Pronouncements*, for a summary of recently adopted or yet to be adopted accounting pronouncements, and their impact on the Company.

3. Recent Accounting Pronouncements

Accounting Standards to be adopted in Future Periods

In June 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (CECL)*, with subsequent amendments to clarify the guidance, provide transitional relief provisions and minor updates to the original ASU. ASU 2016-13 replaces the existing incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. This ASU is required to be adopted using a modified retrospective approach with a cumulative-effect adjustment to beginning retained earnings, as of the beginning of the first reporting period the guidance is effective for. As a result of one of the amendments to ASU 2016-13, the new guidance will be effective for public business entities that meet the definition of a smaller reporting company for fiscal years and all interim periods within those fiscal years, beginning after December 15, 2022, with early adoption permitted. The Company does not plan to early adopt this standard, but continues to work through implementation. While the Company cannot reasonably estimate the impact of adopting this standard, it expects the impact will be influenced by the composition, characteristics and quality of the Company’s securities portfolios, as well as the general economic conditions and forecasts as of the adoption date.

Recently Adopted Accounting Guidance

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, to simplify the accounting for income taxes. This guidance eliminates certain exceptions to the general approach to the income tax accounting model, and adds new guidance to reduce the complexity in accounting for income taxes. The Company adopted ASU 2019-12 effective January 1, 2021. The adoption did not materially impact the Company’s consolidated financial statements or disclosure.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of the FASB’s disclosure framework project. The Company adopted ASU 2018-13 effective January 1, 2020. The adoption did not materially impact the Company’s consolidated financial statements or its disclosures.

- (1) In accordance with ASC 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position. The carrying values of these lines reconciles to the parenthetical disclosure of other investments on the Consolidated Statements of Financial Condition.
- (2) Included in Other Assets on the Consolidated Statements of Financial Condition.

As of June 30, 2021 and December 31, 2020, marketable securities was comprised of U.S. listed equity securities and CLO debt securities.

The fair value of the investments in private equity, real estate and credit funds was measured using the net asset value as a practical expedient. These investments are nonredeemable and had unfunded commitments of \$2.4 million and \$3.5 million as of June 30, 2021 and December 31, 2020 respectively.

Transfers between levels of the fair value hierarchy result from changes in the observability of fair value inputs used in determining fair values for different types of financial assets and are recognized at the beginning of the reporting period in which the event or change in circumstances that caused the transfer occurs.

The Company's policy is to recognize the fair value of transfers among Levels 1, 2 and 3 as of the end of the reporting period. For recurring fair value measurements, there was a transfer of \$1.4 million between Levels 2 and 1 for the six months ended June 30, 2021. For recurring fair value measurements, there were no transfers between Levels 1, 2 and 3 for the year ended December 31, 2020.

The Company's Level 2 assets held in other investments as of December 31, 2020 consist of investments in publicly traded stocks.

As of December 31, 2020, the Company also owned securities in two public companies subject to restrictions on transfer or sale and is therefore recorded as Level 2 assets.

The investments in private equity funds managed by HCS and JMPAM are recognized using the fair value option. The Company uses the reported net asset value per share as a practical expedient to estimate the fair value of the funds. The risks associated with these investments are limited to the amounts of invested capital, remaining capital commitment and any management and incentive fees receivable.

The Company determined the fair value of short-term debt, which consists of notes payable, to approximate their carrying values. This was determined as the debt has either (1) a variable interest rate tied to LIBOR and therefore reflects market conditions, or (2) a term less than one year and there have been no observable changes in the credit quality of the Company since the issuance of the debt. Based on the fair value methodology, the Company has identified short-term debt as Level 2 liabilities.

The Company's Level 3 asset in other investments is primarily comprised of an equity investment in a private company. The Company determines the fair value of this investment using the net present value of discounted cash flows. The significant unobservable inputs used in the fair value measurement of this investment are presented in the Significant Unobservable Inputs table below. For this investment, the Company elected the fair value option. While the Company has made other investments in private equity securities, it has not elected the fair value option for those investments as it is impractical to determine the fair value of those investments.

For the six months ended June 30, 2021, the changes in Level 3 assets measured at fair value on a recurring basis were as follows:

<i>(In thousands)</i>	CLO Junior Subordinated Notes	Equity Investment	Long Term Receivable	Total
Balance as of December 31, 2020	\$ 48,003	\$ 4,206	\$ -	\$ 52,209

Balance as of June 30, 2021	<u>\$ 38,849</u>	<u>\$ (0)</u>	<u>\$ 3,266</u>	<u>\$ 42,115</u>

The Company's Level 3 assets held in marketable securities consist of investments in CLO debt securities. The fair value of the CLO debt securities is determined using the net present value of discounted cash flows. The significant unobservable inputs used in the fair value measurement of these investments are presented in the Significant Unobservable Inputs table below. The Company also uses covenant compliance information provided by the CLO manager when valuing this investment. During the six months ended June 30, 2021, the fair value of the Company's investment in CLO debt securities declined due to a decrease in the expected future cash flows from CLO debt securities, primarily due to realized credit losses in the portfolios and the liquidation of one of the CLO's during the quarter.

The Company's Level 3 asset in long term receivable consist of a payment stream from a sale of its equity investment. The fair value of the long term receivable is determined using the net present value of discounted cash flows. The significant unobservable inputs used in the fair value measurement of this long term receivable is presented in the Significant Unobservable Inputs table below. For this long term receivable, the Company elected the fair value option.

For assets classified in the Level 3 hierarchy, any changes to any of the inputs to the fair value measurement could result in a significant increase or decrease in the fair value measurement. For CLO debt securities, a significant increase (decrease) in the discount rate, default rate, and severity rate would result in a significant decrease (increase) in the fair value of the instruments. For the equity investment, a significant increase (decrease) in the credit factor or the discount rate would result in a significantly lower (higher) fair value measurement. For Level 3 assets measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020, the significant unobservable inputs used in the fair value measurements were as follows:

<i>(In thousands)</i>		Significant Unobservable Inputs Range (Weighted-average (1))			Fair value

(1) The weighted average was calculated based on the relative collateral balance of each CLO.

Non-recurring Fair Value Measurements

The Company's assets that are measured at fair value on a non-recurring basis result from the application of lower of cost or market accounting or write-downs of individual assets. The Company held a loan measured at fair value on a non-recurring basis of \$2.4 million as of June 30, 2021 and December 31, 2020.

5. Available-for-Sale Securities

The following table summarizes available-for-sale securities in an unrealized position as of June 30, 2021 and December 31, 2020:

In July 2020, the Company entered into a Seventh Amendment to its Credit Facility with CNB, that, among other things, requires the Company maintain a minimum of \$6.0 million of CLO debt securities, based on their fair value as of June 30, 2020, pledged as collateral supporting the obligations under the Credit Agreement. See Note 7, Debt, for more information on the Seventh Amendment.

With the liquidation of CLO III, on August 4, 2021, the Company entered into a Ninth Amendment to its Credit Facility with CNB that restated the agreement to require the Company to maintain a minimum of \$4.0 million of CLO debt securities based on their fair value as of June 30, 2020, pledged as collateral supporting the obligations under the Credit Agreement. See Note 7, Debt, for more information on the Seventh and Ninth Amendments.

6. Loans

Loans Held for Investment

As of June 30, 2021 and December 31, 2020, the number of loans held for investment was one and two, respectively. The Company reviews the credit quality of these loans on a loan by loan basis mainly focusing on the borrower's financial position and results of operations as well as the current and expected future cash flows on the loans.

There were no loans past due as of June 30, 2021 and December 31, 2020. A summary of the activity in the allowance for loan losses for the six months ended June 30, 2021 and the year ended December 31, 2020 is as follows:

(In thousands)	Six Months Ended	Year Ended
	June 30, 2021	December 31, 2020
Balance, at beginning of the period	\$ -	\$ -
Provision for loan losses	-	(112)

Balance, at end of the period	\$ -	\$ -

A loan is considered to be impaired when, based on current information, it is probable that the Company will be unable to collect all amounts due in accordance with the contractual terms of the original loan agreement, including scheduled principal and interest payments. As of June 30, 2021 and December 31, 2020, none of the recorded investment amount of loans issued were individually evaluated for impairment.

During the six months ended June 30, 2021, the Company did not record any impairment. During the year ended December 31, 2020, the Company recorded \$0.1 million of impairment on the \$1.0 million loans evaluated for impairment.

The Company had no troubled debt restructurings during the three months ended June 30, 2021 and the year ended December 31, 2020, respectively.

- (1) In February 2021, the Company redeemed \$10.0 million par value of its issued and outstanding 2027 Senior Notes. The Company recognized a \$0.3 million loss on redemption, which is included in "(Loss) gain on repurchase, reissuance or early retirement of debt" on the Consolidated Statement of Operations. In June 2021, the Company redeemed another \$10.0 million par value of its issued and outstanding 2027 Senior Notes. The Company recognized again another \$0.3 million loss on redemption, which is included in "(Loss) gain on repurchase, reissuance or early retirement of debt" on the Consolidated Statement of Operations.
- (2) In March 2020, the Company repurchased \$1.4 million and \$0.7 million par value of its issued and outstanding 2029 Senior Notes and 2027 Senior Notes, respectively. Since they were repurchased at less than carrying value, a gain of \$0.7 million was recognized upon the repurchase of the bonds, which is included in "(Loss) gain on repurchase, reissuance or early retirement of debt" on the Consolidated Statements of Operations.

The 7.25% senior notes due 2027 (the "2027 Senior Notes") and the 6.875% senior notes due 2029 (the "2029 Senior Notes") (the 2027 and 2029 Senior Notes are collectively referred to as the "Senior Notes") were issued by JMP Group Inc. and JMP Group LLC, respectively, pursuant to indentures with U.S. Bank National Association, as trustee. The Senior Notes indentures contain customary event of default and cure provisions. If an uncured default occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the Senior Notes may declare the Senior Notes immediately due and payable. The Senior Notes are JMP Group Inc.'s and JMP Group LLC's general unsecured senior obligations, and rank equally with all existing and future senior unsecured indebtedness and are senior to any other indebtedness expressly made subordinate to the notes. At both June 30, 2021 and December 31, 2020, the Company was in compliance with the debt covenants in the indentures.

JMP Group Inc., a wholly-owned subsidiary of JMP Group LLC, is the primary obligor of the Company's 2027 Senior Notes. Pursuant to the indenture of the 2027 Senior Notes, JMP Group LLC and JMP Investment Holdings LLC (the "Guarantors") are the guarantors of the 2027 Senior Notes. The Guarantors jointly and severally provide a full and unconditional guarantee of the due and punctual payment of the principal and interest on the 2027 Senior Notes and the due and punctual payment or performance of all other obligations of JMP Group Inc. under the indenture governing the 2027 Senior Notes.

JMP Holding LLC (the "Borrower"), a wholly owned subsidiary of the Company, entered into a Second Amended and Restated Credit Agreement dated April 30, 2014 among the Borrower, the lenders from time to time party thereto (the "Lenders") and CNB, as administrative agent for the Lenders (as amended, the "Credit Agreement").

On July 16, 2020, the Borrower entered into a Seventh Amendment to the Credit Agreement, in order to, among other provisions, (i) allow JMP Holding to incur liens of certain clearing agents in the ordinary course of business, (ii) reduce the margin applicable to LIBOR loans from 2.25% to 2.00% and (iii) require that JMP Holding maintain a minimum of \$6.0 million of CLO debt securities, based on their fair value as of June 30, 2020, pledged as collateral supporting the obligations under the Credit Agreement and refrain from exercising any right to call the related CLO entities or cause the liquidation of such CLO entities.

On December 31, 2020, the Borrower entered into an Amendment Number Eight (the "Eighth Amendment") to that certain Second Amended and Restated Credit Agreement dated April 30, 2014 among the Borrower, the Lenders and CNB. The Eighth Amendment extended the outside maturity date of the Revolving Loan under the Credit Facility from December 31, 2020 to December 31, 2022 and removed the mechanism whereby the Revolving Loan would convert into a term loan for 12 months after the revolving period ends. The Eighth Amendment amended certain financial covenants and introduced a definition of "Borrowing Base", which is a sum of certain assets of the Loan Parties, and added a provision that caps the total amount that can be borrowed under the Revolving Loan to the amount of the Borrowing Base if the Borrowing Base is lower than the Maximum Revolver Amount of \$25 million. As of June 30, 2021 and December 31, 2020, the Borrowing Base exceeded \$25 million, respectively.

With the liquidation of CLO III, on August 4, 2021, the Company entered into a Ninth Amendment to its Credit Facility with CNB that restated the agreement to require the Company to maintain a minimum of \$4.0 million of CLO debt securities based on their fair value as of June 30, 2020, pledged as collateral supporting the obligations under the Credit Agreement. See Note 7, Debt, for more information on the Seventh and Ninth Amendments.

The Credit Agreement provides a \$25.0 million revolving line of credit (the "Revolver") through December 31, 2022 bears interest at a rate of LIBOR plus 225 bps.

The Credit Agreement provides that the Revolver may be used, on a revolving basis, to fund specified permitted investments in collateralized loan obligation vehicles. In addition, up to \$5.0 million of the Revolver may be used, on a revolving basis, to fund other types of permitted investments and acquisitions and for working capital.

As of June 30, 2021, the Borrower had drawn \$6.0 million against the Revolver and had letters of credit outstanding under this facility to support office lease obligations of approximately \$1.1 million in the aggregate.

The Credit Agreement contains financial and other covenants, including, but not limited to, limitations on debt, liens and investments, as well as the maintenance of certain financial covenants. A violation of any one of these covenants could result in a default under the Credit Agreement, which would permit CNB to terminate the Company's note and require the immediate repayment of any outstanding principal and interest. As of June 30, 2021 and 2020, the Company was in compliance with the covenants under the Credit Agreement.

JMP Holding's obligations under the Credit Agreement are guaranteed by all of its wholly owned subsidiaries (other than JMP Securities and certain dormant subsidiaries) and are secured by substantially all of its and the guarantors' assets. In addition, the Company has entered into a limited recourse pledge agreement whereby the Company has granted a lien on all of our equity interests in JMP Investment Holdings and JMPAM to secure JMP Holding's obligations under the Credit Agreement.

Separately, under a Revolving Note and Cash Subordination Agreement, JMP Securities holds a \$20.0 million revolving line of credit (the "Line of Credit") with CNB to be used for regulatory capital purposes during its securities underwriting activities. On June 29, 2021, JMP Securities entered Amendment Number Twelve to the Revolving Note Agreement. Pursuant to this amendment, the \$20.0 million Revolving Note Agreement was extended for one year until June 30, 2022. On June 30, 2022, any existing outstanding amount under the Revolving Note will convert to a term loan maturing the following year. There was no borrowing on this Line of Credit as of June 30, 2021 and December 31, 2020, respectively. Borrowings under the Line of Credit will bear interest at a rate to be agreed upon at the time of advance between the Company and CNB.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act (the "CARES Act") was enacted in response to market conditions related to the coronavirus ("COVID-19") pandemic. The CARES Act includes many measures to help companies, including providing loans to qualifying companies, under the Paycheck Protection Program (the "PPP") offered by the U.S. Small Business Administration (the "SBA"). On April 17, 2020, JMP Securities entered into a promissory note (the "PPP Loan") with CNB as the lender (the "Lender"), pursuant to which the Lender agreed to loan the Company \$3.8 million. The proceeds of the PPP Loan were available to be used to pay for payroll costs, rent and other eligible costs. As of June 30, 2021, the Company has used all of the PPP Loan proceeds for eligible costs and has applied for forgiveness, and is waiting to be granted such forgiveness.

The PPP Loan bears interest at the rate of 1% per annum. To the extent that amounts owed under the PPP Loan, or a portion of them, are not forgiven, the Company will be required to make principal and interest payments. No payments are required until the date the SBA makes a determination on the amount of loan forgiveness. If not forgiven, the PPP Loan matures in June 2022. The PPP Loan includes events of default. Upon the occurrence of an event of default, the Lender will have the right to exercise remedies against the Company, including the right to require immediate payment of all amounts due under the PPP Loan.

8. Other Assets and Other Liabilities

At June 30, 2021 and December 31, 2020, other assets and other liabilities consisted of the following:

Distributions on Common Shares

On February 19, 2020, the Company suspended its quarterly cash distributions program on outstanding shares.

Self-Tender Offers

On February 24, 2020, the Company launched a tender offer (the "2020 Tender Offer") to repurchase for cash up to 3,000,000 shares representing limited liability company interests in the Company. The 2020 Tender Offer was terminated on March 19, 2020 as a result of multiple conditions to the 2020 Tender Offer, including share price and market index conditions, not having been satisfied.

10. Share-Based Compensation

On January 27, 2015, the board of directors adopted the JMP Group LLC Amended and Restated Equity Incentive Plan ("JMP Group Plan"). The plan maintains authorization of the issuance of 4,000,000 shares, as originally approved by shareholders on April 12, 2007 and subsequently approved by shareholders on June 6, 2011. This amount is increased by any shares the Company purchases on the open market, or through any share repurchase or share exchange program, initiated by the Company unless the board of directors or its appointee determines otherwise. Upon an exercise or vesting, the Company will issue new shares from authorized but unissued shares or provide shares from treasury shares.

The following table summarizes the share-based compensation expense for the three and six months ended June 30, 2021 and 2020.

The Company recognizes share-based compensation expense, net of estimated forfeitures, for share options over the vesting period using the accelerated attribution method when they are subject to graded vesting and on a straight-line basis when they are subject to cliff vesting.

As of June 30, 2021 and 2020, there was \$0.4 million and \$1.3 million of unrecognized compensation expense related to share options, respectively.

There were no share options exercised during the six months ended June 30, 2021 and 2020. As a result, the Company did not recognize any current income tax benefits from the exercise of share options during both periods.

The Company uses the Black-Scholes option-pricing model or other quantitative models to calculate the fair value of option awards.

Restricted Share Units

The following table summarizes restricted share unit ("RSU") activity for the six months ended June 30, 2021:

Six Months Ended June 30, 2021	
Restricted Share Units	Weighted Average Grant Date Fair

		Value
Balance, beginning of year	220,209	\$ 3.32

Forfeited	(18,878)	4.24
Balance, end of period	<u>580,588</u>	<u>\$ 4.69</u>

The aggregate fair value of RSUs vested during the six months ended June 30, 2021 were \$0.6 million. The income tax benefits realized from the vested RSUs were \$0.16 million for the six months ended June 30, 2021.

The Company recognizes compensation expense, net of estimated forfeitures, for RSUs over the vesting period using the accelerated attribution method when they are subject to graded vesting and on a straight-line basis when they are subject to cliff vesting.

For the six months ended June 30, 2021, the Company recognized income tax benefits of \$0.2 million related to the compensation expense recognized for RSUs. As of June 30, 2021, there was \$1.7 million of unrecognized compensation expense related to RSUs expected to be recognized over a weighted average period of 1.5 years.

The Company pays cash distribution equivalents on certain RSUs upon vesting. Distribution equivalents paid on RSUs are generally charged to retained earnings. The Company accounts for the tax benefit related to distribution equivalents paid on RSUs as an increase in additional paid-in capital.

11. Net Income (Loss) per Common Share

Basic net income (loss) per share for the Company is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the reporting period. Diluted net income (loss) per share is calculated by adjusting the weighted average number of outstanding shares to reflect the potential dilutive impact as if all potentially dilutive share options or RSUs were exercised or converted under the treasury share method. However, for periods that the Company has a net loss, the effect of outstanding share options or RSUs is anti-dilutive and, accordingly, is excluded from the calculation of diluted loss per share.

The computations of basic and diluted net income (loss) per share for the three and six months ended June 30, 2021 and 2020 are shown in the tables below:

(In thousands, except per share data)

Share options to purchase 2,000,000 of common shares for the three and six months ended June 30, 2021, were anti-dilutive and, therefore, were not included in the computation of diluted weighted-average common shares outstanding.

RSUs for 119,449 common shares for the six months ended June 30, 2020, were anti-dilutive and, therefore, were not included in the computation of diluted weighted-average common shares outstanding due to the net loss.

13. Income Taxes

JMP Group LLC's election to be taxed as a corporation for United States federal income tax purposes was approved by the Internal Revenue Service with an effective date of January 1, 2019. Taxable income derived from the investment activities of its previously untaxed pass-through entities will now be taxed at a U.S. federal and state corporate rate, along with the Company's corporate subsidiaries.

For the three months ended June 30, 2021 and 2020, the Company recorded income tax expense of \$1.3 million and tax expense of \$0.2 million, respectively. The effective tax rate is 26.40% and 13.82% for the three months ended June 30, 2021 and 2020, respectively. For the six months ended June 30, 2021 and 2020, the Company recorded income tax expense of \$1.7 million and tax benefit of \$7.1 million, respectively. The effective tax rate is 26.0% and 39.7% for the six months ended June 30, 2021 and 2020, respectively.

For financial reporting purposes, the Company's effective tax rate used for the interim periods is based on the estimated full-year income tax rate. For the six months ended June 30, 2021, the Company's effective tax rate differs from the statutory rate primarily due to the excess tax benefit that was created after stock compensation awards were vested.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act (the "CARES Act") was enacted in response to market conditions related to the coronavirus ("COVID-19") pandemic. The CARES Act includes many measures to help companies, including changes that are temporary and non-income based tax laws, some of which were part of the Tax Cuts and Jobs Act (TCJA). One provision of the CARES Act increases the tax deduction for net operating losses from 80% to 100% for 2018 through 2020 and allows net operating losses generated in 2018 through 2020 to be carried back up to five years. The Company has made reasonable assessments in accounting for certain effects of the CARES Act that was passed. However, the provisional impacts may be refined over the prescribed measurement period.

The Company recognizes deferred tax assets and liabilities in accordance with ASC 740, *Income Taxes*, and are determined based upon the temporary differences between the financial reporting and tax basis of the Company's assets and liabilities using the tax rates and laws in effect when the differences are expected to reverse.

14. Commitments and Contingencies

In connection with its underwriting activities, JMP Securities may, from time to time, enter into firm commitments for the purchase of securities in return for a fee. These commitments require JMP Securities to purchase securities at a specified price. Securities underwriting exposes JMP Securities to market and credit risk, primarily in the event that, for any reason, securities purchased by JMP Securities cannot be distributed at anticipated price levels. JMP Securities had no open underwriting commitments at both June 30, 2021 and December 31, 2020.

The marketable securities owned and the restricted cash, as well as the cash held by clearing brokers may be used to maintain margin requirements. The Company had \$0.8 million and \$0.8 million of cash on deposit with JMP Securities' clearing brokers at June 30, 2021 and December 31, 2020, respectively. Furthermore, the marketable securities owned may be hypothecated or borrowed by clearing brokers.

Unfunded commitments are agreements to lend to a borrower, provided that all conditions have been met. The Company had no material unfunded commitments to lend at both June 30, 2021 and December 31, 2020.

15. Regulatory Requirements

JMP Securities is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. JMP Securities had net capital of \$40.3 million and \$42.3 million, which were \$38.7 million and \$40.6 million in excess of the required net capital of \$1.6 million and \$1.7 million at June 30, 2021 and December 31, 2020 respectively. JMP Securities' ratio of aggregate indebtedness to net capital was 0.62 to 1 at June 30, 2021 and December 31, 2020.

Since all customer transactions are cleared through another broker-dealer on a fully disclosed basis, JMP Securities is not required to maintain a separate bank account for the exclusive benefit of customers in accordance with Rule 15c3-3 under the Exchange Act.

16. Related Party Transactions

The Company earns base management fees and incentive fees from serving as investment advisor for various entities, including corporations, partnerships limited liability companies, and offshore investment companies. The Company also owns an investment in some of such affiliated entities. As of June 30, 2021 and December 31, 2020, the aggregate fair value of the Company's investments in the affiliated entities for which the Company serves as the investment advisor was \$11.5 million and \$17.3 million, respectively, which consisted of investments in hedge and other private funds of \$11.5 million and \$9.8 million, for the periods, respectively and an investment in HCC common stock of zero and \$7.5 million for the periods, respectively. Base management fees earned from these affiliated entities were \$1.3 million and \$1.7 million for the three months ended June 30, 2021 and 2020. Also, the Company earned incentive fees of \$9.8 million and zero, from these affiliated entities for the three months ended June 30, 2021 and 2020.

On January 9, 2018, an affiliate purchased a \$0.8 million note from the Company. As of June 30, 2021, the carrying value of note payable was \$0.8 million. The note bears interest at a rate of 12.5% per annum and matures November 20, 2022.

On September 19, 2017, the Company made a loan to a registered investment adviser of \$3.4 million at an interest rate of 15% per year. In October 2019, the Company sold 30% of the loan, or \$1.0 million, to an affiliate. As of both June 30, 2021 and December 31, 2020, the Company's portion of the outstanding loan balance to this entity was \$2.4 million. The Company determined the fair value of the loan was \$2.4 million as of both June 30, 2021 and December 31, 2020 using the bid price.

On November 20, 2017, the Company entered into a purchase agreement with the same registered investment adviser for the purchase of 24.9% ownership of the entity. The Company recognized its investment using the equity method, with related gains recognized in other income. The company

recognized \$0.1 million and \$0.1 million in other income for the three months ended June 30, 2021 and 2020, respectively. As of June 30, 2021 and December 31, 2020, the investment balance was \$4.7 million and \$4.5 million, respectively.

17. Litigation

The Company may be involved from time to time in a number of judicial, regulatory, litigation and arbitration matters arising in connection with the business. The outcome of such matters the Company has been and/or currently is involved in cannot be determined at this time, and the results cannot be predicted with certainty. There can be no assurance that these matters will not have a material adverse effect on the results of operations in any future period and a significant outcome could have a material adverse impact on the Company's financial condition, results of operations and cash flows.

The Company reviews the need for any loss contingency reserves and establishes reserves when, in the opinion of management, it is probable that a matter would result in liability and the amount of loss, if any, can be reasonably estimated. Generally, given the inherent difficulty of predicting the outcome of matters the Company is involved in, particularly cases in which claimants seek substantial or indeterminate damages, it is not possible to determine whether a liability has been incurred or to reasonably estimate the ultimate or minimum amount of that liability until the case is close to resolution. For these matters, no reserve is established until such time, other than for reasonably estimable legal fees and expenses. Management, after consultation with legal counsel, believes that the currently known actions or threats will not result in any material adverse effect on the Company's financial condition, results of operations or cash flows.

18. Financial Instruments with Off-Balance Sheet Risk, Credit Risk or Market Risk

The majority of the Company's transactions, and consequently the concentration of its credit exposure, is with its clearing brokers. The Company may enter into margin transactions in its principal trading accounts held at a clearing broker. Such margin transactions are collateralized by the Company's cash and securities held in those accounts. Clearing brokers have the right to pledge or hypothecate such collateralized assets under the margin transaction agreement. The receivable from the clearing brokers include commissions receivable related to security transactions of customers and amounts receivable in connection with the trading of proprietary positions. The Company is also exposed to credit risk from other brokers, dealers and other financial institutions with which it transacts business. In the event that these other parties do not fulfill their obligations in the course of business dealings, the Company may be exposed to credit risk.

The Company's trading activities include providing securities brokerage services to institutional clients. To facilitate these customer transactions, the Company purchases proprietary securities positions ("long positions") in equity securities. The Company also enters into transactions to sell securities not yet purchased ("short positions"), which are recorded as liabilities on the Consolidated Statements of Financial Condition. The Company is exposed to market risk on these long and short securities positions as a result of decreases in market value of long positions and increases in market value of short positions. Short positions create a liability to purchase the security in the market at prevailing prices. Such transactions result in off-balance sheet market risk as the Company's ultimate obligation to satisfy the sale of securities sold, but not yet purchased, may exceed the amount recorded in the Consolidated Statements of Financial Condition. To mitigate the risk of losses, these securities positions are marked to market daily and are monitored by management to assure compliance with limits established by the Company.

JMP Securities has agreed to indemnify its clearing brokers for losses that the clearing brokers may sustain from the accounts of customers introduced by JMP Securities. Should a customer not fulfill its obligation on a transaction, JMP Securities may be required to buy or sell securities at prevailing market prices in the future on behalf of its customer. JMP Securities' indemnification obligations to its clearing brokers have no maximum amount. All unsettled trades at June 30, 2021 and December 31, 2020 have subsequently settled with no resulting material liability to the Company. For the six months ended June 30, 2021 and 2020, the Company had no material loss due to counterparty failure, and had no obligations outstanding under the indemnification arrangement as of June 30, 2021 and December 31, 2020.

The Company is engaged in various investment banking and brokerage activities whose counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a borrower to a third party. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on balance sheet instruments. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to borrowers. In addition, the Company had unfunded commitments to lend to a borrower. The Company had no material unfunded commitments to lend to a borrower as of June 30, 2021 and December 31, 2020.

19. Business Segments

The Company's business results are categorized into the following four business segments: Broker-Dealer, Asset Management Fee Income, Investment Income, and Corporate Costs. The Broker-Dealer segment includes a broad range of services, such as underwriting and acting as a placement agent for public and private capital markets raising transactions and financial advisory services in M&A, restructuring and other strategic transactions. The Broker-Dealer segment also includes institutional brokerage services and equity research services to our institutional investor clients. The Asset Management Fee Income segment includes the management of a broad range of pooled investment vehicles, including the Company's hedge funds, private equity funds, hedge funds of funds, and collateralized loan obligations (through March 2019). The Investment Income segment includes income from the Company's principal investments in public and private securities and investment funds managed by HCS, as well as any other net interest and income from investing activities, and interest expense related to the Company's bond issuance. The Corporate Costs segment also includes expenses related to JMP Group LLC, JMP Holding LLC and JMP Group Inc., and is mainly comprised of corporate overhead expenses.

Management uses operating net income, a Non-GAAP financial measure, as a key metric when evaluating the performance of the Company's core business strategy and ongoing operations. This measure adjusts the Company's net income as follows: (i) reverses share-based compensation expense recognized during the period, (ii) recognizes 100% of the share-based compensation expense in the period the award was granted, instead of recognizing it over the vesting period as required under GAAP, (iii) reverses amortization expense related to an intangible asset resulting from the repurchase of a portion of the equity of CLO III prior to March 31, 2019; (iv) unrealized gains or losses on commercial real estate investments, adjusted for non-cash expenditures, including depreciation and amortization; (v) reverses net unrealized gains and losses on strategic equity investments and warrants; (vi) reverses any impairment of CLO debt securities recognized in principal transactions, (vii) reverses one-time transaction costs related to the refinancing or repurchase of debt; and (viii) a combined federal, state and local income tax rate of 26% at the consolidated taxable parent company, JMP Group LLC. In management's view of the Company's performance, these charges may obscure the Company's operating income and complicate an assessment of the Company's core business activities. The operating pre-tax net income facilitates a meaningful comparison of the Company's results from period to period.

Recent Developments

On January 30, 2020, the spread of novel coronavirus (“COVID-19”) was declared a Public Health Emergency of International Concern by the World Health Organization (“WHO”). Subsequently, on March 11, 2020, WHO characterized the COVID-19 outbreak as a pandemic. In March 2020, the U.S. equities market saw sharp declines and extreme volatility in reaction to the COVID-19 pandemic.

In the second quarter of 2020, unprecedented fiscal and monetary stimuli by the U.S. government spurred a sharp recovery in U.S. equity prices. The U.S. equities market continued to recover from the impact of the COVID-19 pandemic during the second half of 2020. The Company’s equity capital markets and brokerage revenues directly benefited from the improved capital market condition.

We continue to closely monitor the status of the COVID-19 pandemic and its impact on our business, the economy and capital markets globally. An economic recession could have a material adverse effect on our business, financial condition, results of operations, or cash flows. While we are optimistic that the equity market could remain active through year-end, we cannot reliably estimate the extent to which the COVID-19 pandemic will impact our business in the remainder of 2021 and beyond.

In February 2020, Medalist Partners Corporate Finance LLC ("MPCF") completed the securitization of Medalist Partners Corporate Finance CLO VI Ltd upon which the related CLO VI warehouse was liquidated. The Company does not hold any subordinated notes of Medalist Partners Corporate Finance CLO VI Ltd.

On June 9, 2021, HCC and Portman Ridge Finance Corporation ("PTMN") closed a merger transaction pursuant to which HCC merged with and into PTMN, a business development company managed by Sierra Crest Investment Management LLC ("Sierra Crest"), an affiliate of BC Partners Advisors L.P. In connection with the merger, the Company received aggregate consideration totaling \$9.5 million and recorded a realized gain of \$0.1 million. The Company's subsidiary HCAP Advisors provided investment advisory services to HCC and in connection with the merger, Sierra Crest and HCAP Advisors have agreed to a transition services agreement pursuant to which HCAP Advisors will provide certain consulting services to Sierra Crest relating to HCC's investment portfolio. Under the transition services agreement, HCAP Advisors is expected to earn \$3.9 million in total through the three-year period commencing on the merger date.

In June 2021, the Company sold its existing 45.0% ownership interest in Medalist Partners Corporate Finance LLC. The Company received a \$1.5 million upfront cash payment, canceled its previous fee-sharing agreement, and entered into a new fee sharing agreement, in which the Company will retain an interest to receive 20 basis points of the total 35 basis points in subordinated management fees from JMP Credit Advisors CLO IV Ltd. And JMP Credit Advisors CLO V Ltd. The Company recognized a realized gain of \$1.4 million on this transaction.

Operating Net Income (Non-GAAP Financial Measure)

Management uses Operating Net Income as a key, non-GAAP metric when evaluating the performance of JMP Group LLC's core business strategy and ongoing operations, as management believes that this metric appropriately illustrates the operating results of JMP Group LLC's core operations and business activities. Operating Net Income is derived from our segment reported results and is the measure of segment profitability on an after-tax basis used by management to evaluate our performance. This non-GAAP measure is presented to enhance investors' overall understanding of the Company's current financial performance. Additionally, management believes that Operating Net Income is a useful measure because it allows for a better evaluation of the performance of JMP Group LLC's ongoing business and facilitates a meaningful comparison of the Company's results in a given period to those in prior and future periods.

However, Operating Net Income should not be considered a substitute for results that are presented in a manner consistent with GAAP. A limitation of the non-GAAP financial measures presented is that, unless otherwise indicated, the adjustments concern gains, losses or expenses that JMP Group LLC generally expects to continue to recognize, and the adjustment of these items should not always be construed as an inference that these gains or expenses are unusual, infrequent or non-recurring. Therefore, management believes that both JMP Group LLC's GAAP measures of its financial performance and the respective non-GAAP measures should be considered together. Operating Net Income may not be comparable to a similarly titled measure presented by other companies.

Operating Net Income is a non-GAAP financial measure that adjusts the Company's GAAP net income as follows:

- (i) reverses compensation expense recognized under GAAP related to equity awards;
- (ii) recognizes 100% of the cost of deferred compensation in the period for which such compensation was awarded, instead of recognizing such cost over the vesting period as required under GAAP, in order to match compensation expense with the actual period upon which the compensation was based;
- (iii) reverses amortization expense related to an intangible asset resulting from the repurchase of a portion of the equity of CLO III prior to March 31, 2019;
- (iv) unrealized gains or losses on commercial real estate investments, adjusted for non-cash expenditures, including depreciation and amortization;
- (v) reverses net unrealized gains and losses on strategic equity investments and warrant positions;
- (vi) reverses impairment of CLO debt securities recognized in principal transaction revenues, as the Company believes that the forecasted reduction in future cash flows will be mitigated by a change in the interest rate environment and that distributions will be larger than currently projected;
- (vii) reverses the one-time transaction costs related to the refinancing or repurchase of the debt;
- (viii) includes a combined federal, state and local income tax rate of 26% at the consolidated taxable parent company, JMP Group LLC;
- (ix) removes any non-controlling interest in consolidated but less than wholly owned subsidiaries; and

Provision for Income Taxes

Income tax expense was \$1.7 million and \$7.1 million benefit for the six months ended June 30, 2021 and 2020, respectively. The Company's tax benefit decreased for the six months ended June 30, 2021 from June 30, 2020 due to an increase from net income.

On January 1, 2019, the Company elected to be treated as a C corporation for tax purposes, rather than a partnership, going forward.

For GAAP reporting purposes, the Company's effective tax rate used for the interim periods is based on the estimated full-year income tax rate. The effective tax rate differs from the statutory rate primarily due to the net operating loss carryback that was created in prior year which was subsequently carried back to offset years with taxable income that was derived from a different corporate tax rate.

Segment income tax was a \$3.5 million expense and \$0.7 million expense for the six months ended June 30, 2021 and 2020, respectively.

For segment reporting purposes, an effective tax rate of 26% was assumed for the six months ended June 30, 2021 and 2020 based on our best estimation of the subsidiary's average rate of taxation over the long term.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted in response to market conditions related to the coronavirus (COVID-19) pandemic. The CARES Act includes many measures to help companies, including changes that are temporary and non-income based tax laws, some of which were part of the Tax Cuts and Jobs Act (TCJA). The Company has made reasonable assessments in accounting for certain effects of the CARES Act that was passed. However, the provisional impacts may be refined over the prescribed measurement period.

The Company recognizes deferred tax assets and liabilities in accordance with ASC 740, *Income Taxes*, and are determined based upon the temporary differences between the financial reporting and tax basis of the Company's assets and liabilities using the tax rates and laws in effect when the differences are expected to reverse.

Summarized Financial Information

JMP Group Inc., a wholly-owned subsidiary of JMP Group LLC, is the primary obligor of the Company's 7.25% Senior Notes due 2027 (the "2027 Senior Notes") (see Note 7, *Debt*). Pursuant to the indenture of the 2027 Senior Notes, JMP Group LLC and JMP Investment Holdings LLC (the "Guarantors") are the guarantors of the 2027 Senior Notes. The Guarantors jointly and severally provide a full and unconditional guarantee of the due and punctual payment of the principal and interest on the 2027 Senior Notes and the due and punctual payment or performance of all other obligations of JMP Group Inc. under the indenture governing the 2027 Senior Notes.

The following summarized financial information presents the information of JMP Group LLC, JMP Investment Holdings LLC and JMP Group Inc. on a combined basis and eliminates intercompany balances. It does not include or present investments in subsidiaries that are not an issuer or guarantor. One of the non-guarantor subsidiaries not combined, JMP Securities, is subject to certain regulations, which require the maintenance of minimum net capital. This requirement may limit the issuer's access to this subsidiary's assets.

These disclosures are in accordance with the new disclosure requirements under SEC Regulation S-X Rule 3-10 and Rule 13-02 issued in March 2020. The amended financial disclosures will consist of summarized financial information, as defined in Rule 1-02(bb)(1) of Regulation S-X, of the issuers and guarantors, which may be presented on a combined basis, and reduce the number of periods presented. The amended non-financial disclosures, among other matters, will expand the qualitative disclosures about the guarantees and the issuers and guarantors. Consistent with the existing rule, disclosure of additional information about each guarantor will be required if it would be material for investors to evaluate the sufficiency of the guarantee. We have early adopted these disclosure rules.

The tables below present summarized financial information as of June 30, 2021 and December 31, 2020 and for the six months ended June 30, 2021.

Financial Condition, Liquidity and Capital Resources

In the section that follows, we discuss the significant changes in the components of our balance sheet, cash flows and capital resources and liquidity for the six months ended June 30, 2021 to demonstrate where our capital is invested and the financial condition of the Company.

Overview

As a result of the ongoing COVID-19 pandemic, we expected certain costs to decline as the underlying activities were restricted by the COVID-19 pandemic, including travel and related expenses. However, the extent to which the COVID-19 pandemic will impact our liquidity in future periods still remains uncertain.

As of June 30, 2021, we had \$87.0 million in cash and cash equivalents and \$17.9 million in undrawn borrowing capacity on our revolving line of credit (some of which borrowing capacity may be used for working capital – See the section entitled JMP Holding LLC Credit Agreement with CNB, below). Based on our historical results, management's experience and our current business strategy, we believe that our existing cash resources and available credit will be sufficient to meet anticipated working capital and capital expenditure requirements for at least the next twelve months.

As of June 30, 2021, we had net liquid assets of \$103.5 million primarily consisting of cash and cash equivalents, receivable from clearing brokers, marketable securities owned, and investment banking receivables, net of marketable securities sold but not yet purchased and accrued compensation. We have satisfied our capital and liquidity requirements primarily through the issuance of the Senior Notes, draws on a line of credit, and internally generated cash from operations. Most of our financial instruments, other than loans held for investment and certain marketable securities, are recorded at fair value or amounts that approximate fair value.

Liquidity Considerations

As of June 30, 2021, our material indebtedness consisted of our then outstanding Senior Notes and borrowing on our revolving line of credit with City National Bank (“CNB”) under the Credit Agreement described below.

Senior Notes

In November 2017, JMP Group Inc. raised \$50.0 million from the issuance of 7.25% Senior Notes (“2027 Senior Notes”). The 2027 Senior Notes will mature on November 15, 2027 and may be redeemed in whole or in part at any time or from time to time at JMP Group Inc.’s option on or after November 28, 2020 at a redemption price equal to the principal amount redeemed plus accrued and unpaid interest. The 2027 Senior Notes bear interest at a rate of 7.25% per year, payable quarterly on February 15, May 15, August 15 and November 15 of each year. Pursuant to the indenture of the 2027 Senior Notes, JMP Group LLC and JMP Investment Holdings LLC (the “Guarantors”) are the guarantors of the 2027 Senior Notes. The Guarantors jointly and severally provide a full and unconditional guarantee of the due and punctual payment of the principal and interest on the 2027 Senior Notes and the due and punctual payment or performance of all other obligations of JMP Group Inc. under the indenture governing the 2027 Senior Notes.

In September 2019, JMP Group LLC raised \$36.0 million from the issuance of 6.875% Senior Notes (“2029 Senior Notes”). The 2029 Senior Notes will mature on September 30, 2029 and may be redeemed in whole or in part at any time or from time to time at the Company’s option on or after September 30, 2021 at a redemption price equal to the principal amount redeemed plus accrued and unpaid interest. The 2029 Senior Notes bear interest at a rate of 6.875% per year, payable quarterly on March 30, June 30, September 30, and December 30 of each year.

In March 2020, the Company repurchased \$1.4 million and \$0.7 million par value of its issued and outstanding 2029 Senior Notes and 2027 Senior Notes, respectively. Since they were repurchased at less than carrying value, a gain of \$0.7 million was recognized upon the repurchase of the bonds, which has been included in the Consolidated Statements of Operations, gain on repurchase, reissuance or early retirement of debt.

In February and June of 2021, the Company redeemed \$10.0 million par value in each month of its issued and outstanding 2027 Senior Notes.

On July 19, 2021, the Company redeemed \$15.0 million par value of its issued and outstanding 2027 Senior Notes. The Company recognized a \$0.4 million loss on the redemption.

JMP Holding LLC Credit Agreement with CNB

JMP Holding LLC (the “Borrower”), a wholly owned subsidiary of the Company, entered into a Second Amended and Restated Credit Agreement dated April 30, 2014 among the Borrower, the lenders from time to time party thereto (the “Lenders”) and CNB, as administrative agent for the Lenders (as amended, the “Credit Agreement”).

On December 31, 2020, the Borrower entered into an Amendment Number Eight (the “Eighth Amendment”) to that certain Second Amended and Restated Credit Agreement dated April 30, 2014 among the Borrower, the Lenders and CNB. The Eighth Amendment extended the outside maturity date of the Revolving Loan under the Credit Facility from December 31, 2020 to December 31, 2022 and removed the mechanism whereby the Revolving Loan would convert into a term loan for 12 months after the revolving period ends. The Eighth Amendment amended certain financial covenants and introduced a definition of “Borrowing Base”, which is a sum of certain assets of the Loan Parties, and added a provision that caps the total amount that can be borrowed under the Revolving Loan to the amount of the Borrowing Base if the Borrowing Base is lower than the Maximum Revolver Amount of \$25 million. As of June 30, 2021, the Borrowing Base exceeded \$25 million.

The Credit Agreement provides a \$25.0 million revolving line of credit (the “Revolver”) through December 31, 2022 that bears interest at a rate of LIBOR plus 225 bps.

The Credit Agreement provides that the Revolver may be used, on a revolving basis, to fund specified permitted investments in collateralized loan obligation vehicles. In addition, up to \$5.0 million of the Revolver may be used, on a revolving basis, to fund other types of permitted investments and acquisitions and for working capital.

As of June 30, 2021, the Borrower had drawn \$6.0 million against the Revolver and had letters of credit outstanding under this facility to support office lease obligations of approximately \$1.1 million in the aggregate.

The Credit Agreement contains financial and other covenants, including, but not limited to, limitations on debt, liens and investments, as well as the maintenance of certain financial covenants. The Credit Agreement also includes an event of default for a “change of control” that tests, in part, the composition of our ownership and an event of default if three or more of the members of the Company’s executive committee fail to be involved actively on an ongoing basis in the management of the Company or any of its subsidiaries. A violation of any one of these covenants could result in a default under the Credit Agreement, which would permit CNB to terminate our Revolver or Converted Term Loan and require the immediate repayment of any outstanding principal and interest. In addition, our subsidiaries are restricted under the Credit Agreement under certain circumstances from making distributions to us if an event of default has occurred under the Credit Agreement.

As of June 30, 2021 and December 31, 2020, we were in compliance with the loan covenants under the Credit Agreement.

The Borrower’s obligations under the Credit Agreement are guaranteed by all of the Company’s other wholly owned subsidiaries (other than JMP Securities and certain dormant subsidiaries) and are secured by substantially all of its and the guarantors’ assets. In addition, we have entered into a limited recourse pledge agreement with CNB whereby JMP Group LLC granted a lien on the equity interests in JMP Investment Holdings LLC and JMPAM to secure the Borrower’s obligations under the Credit Agreement. In July 2020, the Company entered into a Seventh Amendment to its Credit Facility with CNB, that among other things, requires the Company maintain a minimum of \$6.0 million of CLO debt securities, based on their fair value as of June 30, 2020 pledged as collateral supporting the obligations under the Credit Agreement.

With the liquidation of CLO III, on August 4, 2021, the Company entered into a Ninth Amendment to its Credit Facility with CNB that restated the agreement to require the Company to maintain a minimum of \$4.0 million of CLO debt securities based on their fair value as of June 30, 2020, pledged as collateral supporting the obligations under the Credit Agreement. See Note 7, Debt, for more information on the Seventh and Ninth Amendments. See Note 7, *Debt*, for more information on the Seventh Amendment.

Under a Revolving Note and Cash Subordination Agreement (as amended, the “Revolving Note Agreement”) and related Revolving Note (as amended, the “Revolving Note”), each dated April 8, 2011, JMP Securities holds a \$20.0 million revolving line of credit with CNB to be used for regulatory capital purposes in connection with its securities underwriting activities. Advances under the Revolving Note Agreement bear interest at CNB’s announced prime interest rate. The unused portion of the line bears interest at the rate of 0.25% per annum, paid monthly.

On June 29, 2021, JMP Securities entered Amendment Number Twelve to the Revolving Note Agreement. Pursuant to this amendment, the \$20.0 million Revolving Note Agreement was extended for one year until June 30, 2022. On June 30, 2022, any existing outstanding amount under the Revolving Note will convert to a term loan maturing the following year.

There was no borrowing on the Revolving Note as of June 30, 2021 and December 31, 2020.

The Revolving Note Agreement contains financial and other covenants. A violation of any one of these covenants could result in a default under the Revolving Note, which would permit CNB to terminate the Revolving Note and require the immediate repayment of any outstanding principal and interest, subject to the terms of the Revolving Note Agreement.

At both June 30, 2021 and December 31, 2020, JMP Securities was in compliance with the loan covenants under the Revolving Note Agreement.

JMP Securities’ obligations under the Revolving Note Agreement are guaranteed by all of the Company’s wholly owned subsidiaries (other than JMP Securities) and are secured by substantially all the guarantors’ assets.

Other JMP Group LLC considerations

On February 24, 2020 the Company launched a self-tender offer (the “2020 Tender Offer”) to repurchase for cash up to 3,000,000 of shares, at \$3.25 a share, representing limited liability company interests of the Company, which was terminated on March 19, 2020 as a result of multiple conditions to the 2020 Tender Offer, including share price and market index conditions, not having been satisfied.

During the three months ended June 30, 2021, the Company did not repurchase any of the Company’s shares.

On February 19, 2020, the Company suspended its quarterly cash distributions program on outstanding shares.

Upon the securitization of Medalist Partners Corporate Finance CLO VI in February 2020, the Company received \$13.7 million in cash from the CLO VI warehouse and recognized a gain of \$1.0 million.

We had total restricted cash of \$0.8 million comprised primarily of restricted cash at JMP Group Inc. related to the Company’s letters of credit on leasing arrangements.

The timing of bonus compensation payments to our employees may significantly affect our cash position and liquidity from period to period. While our employees and managing directors are generally paid semi-monthly during the year, bonus compensation, which makes up a larger portion of total compensation, is generally paid once a year during the first two months of the following year. In the first two months of 2021, we paid out \$44.5 million of cash bonuses for 2020, including employer payroll tax expense. In the first two months of 2020, we paid out \$26.9 million of cash bonuses for 2019, including employer payroll tax expense.

Because of the nature of our investment banking and sales and trading businesses, liquidity is important to us. Accordingly, we regularly monitor our liquidity position, including our cash and net capital positions. We believe that our available liquidity and current level of equity capital, combined with the funds anticipated to be provided by our operating activities, will be adequate to meet our liquidity and regulatory capital requirements for at least the next twelve months. If circumstances required it, we could improve our liquidity position by discontinuing repurchases of the Company’s common shares, halting cash distributions on our common shares and reducing cash bonus compensation paid.

JMP Securities, our wholly-owned subsidiary and a registered securities broker-dealer, is subject to the SEC’s Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined, and requires that the ratio of aggregate indebtedness to net capital, both as defined under the Exchange Act, shall not exceed 15 to 1. JMP Securities had net capital of \$40.3 million and \$42.3 million, which were \$38.7 million and \$40.6 million in excess of the required net capital of \$1.6 million and \$1.7 million, at June 30, 2021 and December 31, 2020, respectively. JMP Securities’ ratio of aggregate indebtedness to net capital was 0.62 to 1 at June 30, 2021 and December, 31, 2020.

Our investing activities provided \$5.7 million of cash primary due to \$6.8 million of sales and distributions from non-equity method investments, partially offset by \$1.5 million of purchases of other investments.

Our financing activities used \$20.2 million of cash primarily due to \$20 million redemption of bonds payable.

Cash Flows for the Six Months Ended June 30, 2020

Cash decreased by \$2.4 million during the six months ended June 30, 2020 as a result of cash used in operating activities, partially offset by cash provided by investing and financing activities.

Our operating activities used \$18.1 million of cash from a net loss of \$10.7 million, adjusted for the cash used on the gain on other investments, and cash used by operating assets and liabilities of \$7.1 million. The cash used by the change in operating assets and liabilities was primarily due to a decrease in accrued compensation of \$13.8 million, increase in other assets of \$5.3 million, increase of \$3.8 million in receivables, decrease of \$1.9 million in other liabilities, and \$1.4 million increase in marketable securities sold but not yet repurchased, partially offset by an \$18.8 million decrease in marketable securities.

Contractual Obligations

As of June 30, 2021, our aggregate minimum future commitment on our leases was \$21 million.

As of June 30, 2021, \$66.0 million of bonds payable were outstanding, of which \$36.0 million carries interest at a rate of 6.875% per annum and is due in 2029 and the remaining \$30.00 million carries interest at a rate of 7.25% per annum and is due in 2027. The bonds require quarterly payments of interest. Our remaining contractual obligations have not materially changed from those reported in our Annual Report.

Off-Balance Sheet Arrangements

Unfunded commitments are agreements to lend to a borrower, provided that all conditions have been met. The Company had no material unfunded commitments to lend at both June 30, 2021 and 2020.

We had no material off-balance sheet arrangements as of June 30, 2021. However, through indemnification provisions in our clearing agreements with our clearing brokers, customer activities may expose us to off-balance sheet credit risk, which we seek to mitigate through customer screening and collateral requirements.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and of revenues and expenses during the reporting periods. We base our estimates and assumptions on historical experience and on various other factors that we believe are reasonable under the circumstances. The use of different estimates and assumptions could produce materially different results. For example, if factors such as those described under the caption “Risk Factors” in our Annual Report cause actual events to differ from the assumptions we used in applying the accounting policies, our results of operations, financial condition and liquidity could be adversely affected.

On an ongoing basis, we evaluate our estimates and assumptions, particularly as they relate to accounting policies that we believe are most important to the presentation of our financial condition and results of operations. We regard an accounting estimate or assumption to be most important to the presentation of our financial condition and results of operations where:

- the nature of the estimates or assumptions is material due to the level of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change; and
- the impact of the estimates or assumptions on our financial condition or operating performance is material.

Using the foregoing criteria, we consider the following to be our critical accounting policies:

- *Valuation of Financial Instruments*
- *CLO Debt Securities*
- *Asset Management Investment Partnerships*
- *Legal and Other Contingent Liabilities*
- *Income Taxes*

Our significant accounting policies are described further in the “Critical Accounting Policies and Estimates” section and Note 2 - Summary of Significant Accounting Policies in these financial statements and our consolidated financial statements in our Annual Report.
